

ERASMUS+ CAPACITY BUILDING IN HIGHER EDUCATION (E+CBHE)

2021 GRANT HOLDERS MEETING

Overview : Regional Impact Studies

***“Education is the
basic tool for the
development of
consciousness and
the reconstitution of
society”***

CBHE - Regional Impact

2015 projects results

1700 project monitoring visits (some projects visited more than once)

110 thematic national cluster meetings

49 institutional visits

What else

Regional cluster meetings

Regional factsheets

Study on the impact of structural projects

Regional Impact Studies

National impact studies for the Neighbouring Regions and Central Asia

2015 at a glance...

2200 courses developed

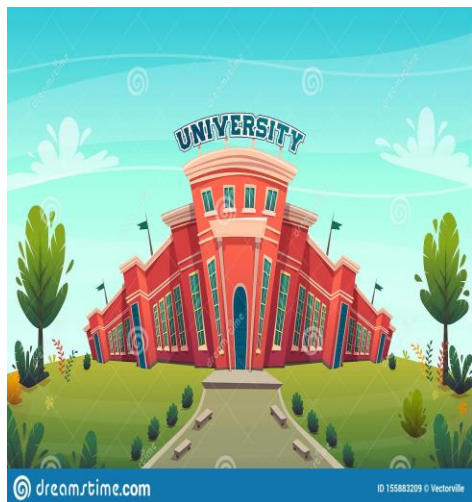

43 courses taught in English

28 projects covering interdisciplinary study programmes

45 % of projects address/involve people with fewer opportunities

23% of projects includes placements for internships for students

20% of the total budget dedicated to equipment

2015 at a glance...

28.822 students enrolled into the developed courses

80.508 students trained and participated in « mobility »

20.018 participations of academic staff

4.914 administrative staff

11.500 trained people from NGOs/private sector

Change in national legislation in or related to the higher education sector

Reform of quality assurance system

CBHE helped to push change

Spin-offs and follow up activities

Ministry engagement often difficult

- limited capacity
- staff turn over
- Unawareness of their role

Challenges...

Is a Structural Project an appropriate tool and/or funding mechanism to drive change at system level?

Are we involving enough institutions located in LDC countries and remote areas ?

Are we involving students in the planning and implementation?

Challenges...

How to ensure institutional commitment?

How to tackle accreditation?

What about recurrent beneficiaries?

How to increase institutional endorsement and increase ownership of the projects' objectives and results?

How to ensure institutional support as a key element of sustainability ?
